Attachment to PTO/SB/51 (12-97) Reissue Application Declaration by the Inventor

At least one error upon which reissue is based is described as follows:

During review of the specification and claims of U.S. Patent No. 5,809,119, subsequent to its issuance, it was found that the claims thereof were unduely limited in that they called for imitations not necessary to the patentable invention as disclosed.

Specifically, it was discovered that an error arose during prosecution of U.S. Patent Application Serial No. 08/670,774, filed June 20, 1996 from U.S. Patent No. 5,809,119 issued on September 15, 1998, due to the failure of the inventors and that of the Japanese Agents to fully appreciate and recognized that the invention could have been claimed more broadly. More particularly, the error occurred due to the fact that the claims could have been broadened to recite a method and communication terminal for conducting an information providing service in a network wherein an identifier of an information provider terminal and a service start time indicating a time to start an information providing service can be stored in a database at the information providing service, a current time is compared with the service start time, and information can be provided from the information provider terminal to a user based on the identifier, when the service start time corresponds to the current time.

CLAIM OF PRIORITY:

Under the provision of title 35, United States Code, Section 119, we reaffirm our claim for priority based upon Japanese Patent Application No. 05-244252, filed in Japan on September 30, 1993, a certified copy of which document and a claim for priority based thereon having been filed in U.S. Application Serial No. 08/314,373, filed September 28, 1994, which matured as U.S. Patent No. 5,590,180.

Under the provision of title 35, United States Code, Section 120, we hereby claim the benefit of U.S. application Serial No. 08/314,373, filed September 28, 1994, now U.S. Patent No. 5,590,180 with respect to U.S. application Serial No. 08/670,774, filed June 20, 1996, now U.S. Patent No. 5,809,119 upon which the present Reissue application has been filed, insofar as the subject matter of each of the claims of the present Reissue application is not disclosed in the prior U.S. applications in the manner provided by the first paragraph of title 35, United States Code, Section 112, we hereby acknowledge the duty to disclose material information as defined in title 37, Code of Federal Regulation Section 1.56 which occurred between the filing of the prior U.S. application and the filing of the present Reissue application.
